It can catch the IMSI/IMEI/MSISDN of the cellphones nearby.

CONTROL

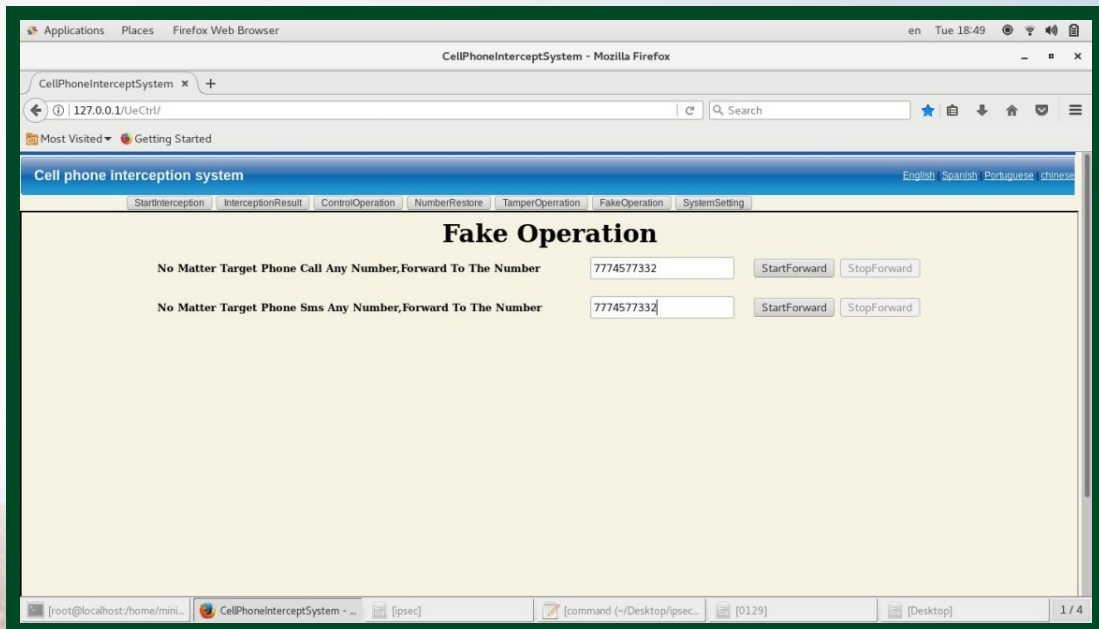

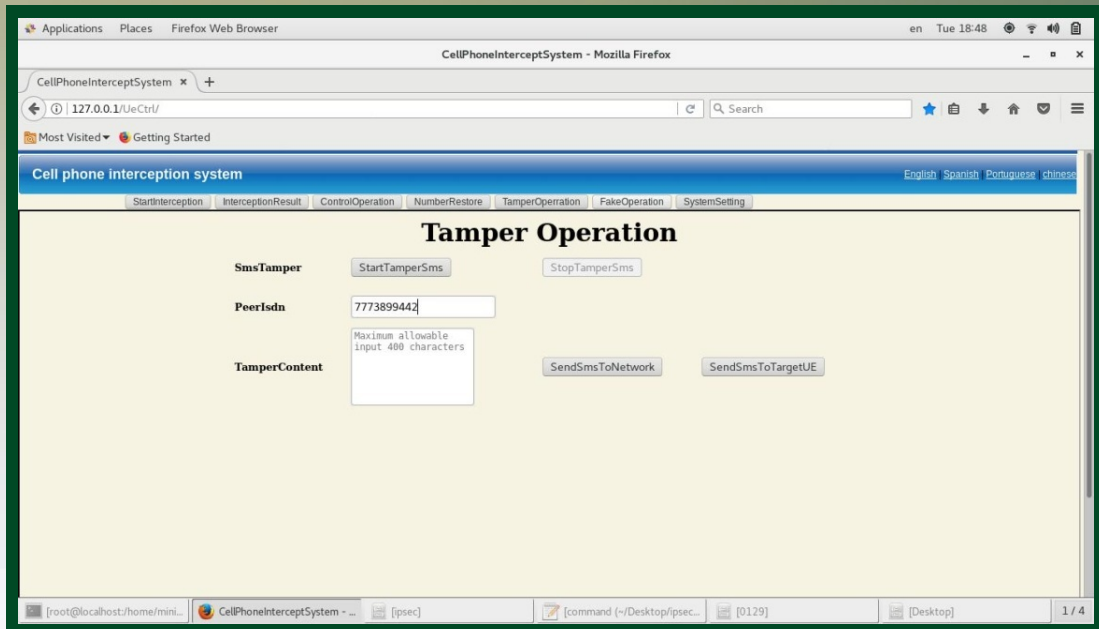

It can hold the target cellphone, and then talk to him, send SMS to him, and catch all his outgoing calls/SMS, and even locate him.

INTERCEPT

It can save the target cellphone's voice/sms/data to database for analysis, and even realtime listen.

TAMPER

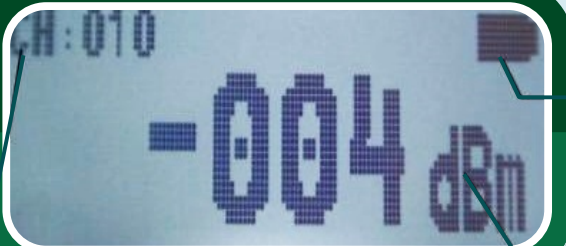

It can forward the target cellphone's outgoing voice/sms to another number; it can also change calling number for the target cellphone's incoming call/sms.

LOCATE THE TARGET

Usage:

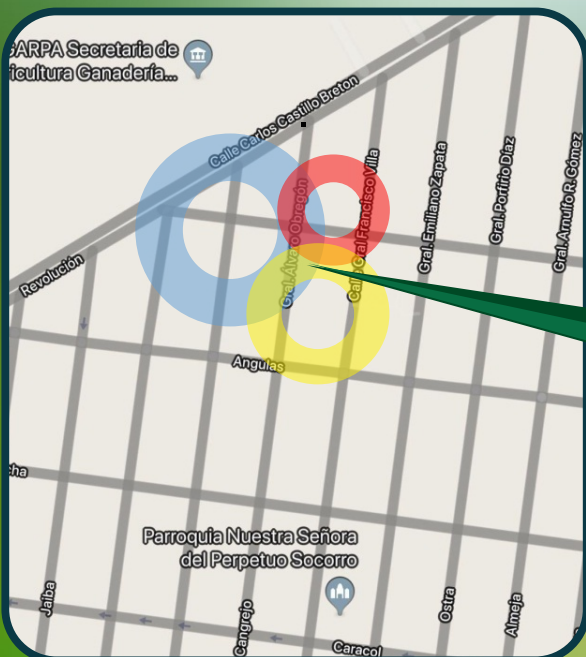

- Put the device in a bag
- Read the signal receiving strength.
- With directional antenna, you can know which direction he is.

Battery Level

Channel number

Detected Power Level

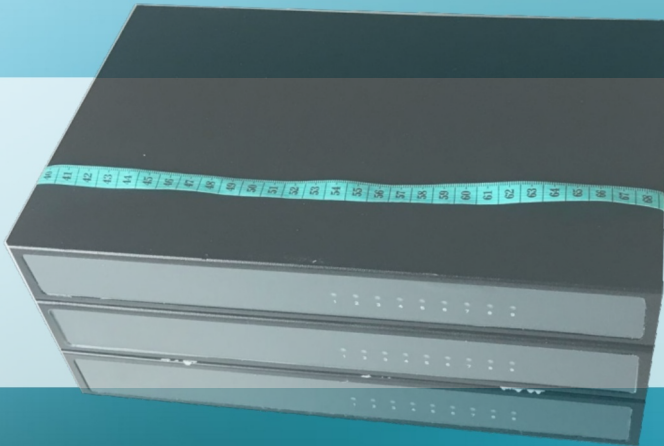

With multi DF devices and the app for Android, you can get calculated position in map.

WHERE CAN YOU USE IT?

- All devices can be installed in the trunk of a vehicle.
- Coverage range: 200 meters in city, 500 meters in rural area.
